

The kind the United States Government uses. The kind the Bord e n Condensed Milk Co. uses and many thousand others use and the kind you can use with great profit.

What The Unadilla Silo Saves You

Saves \$50.00 to \$100 per year in quality of ensilage. Saves \$15.00 per year in loss of ensilage near door. Saves \$5.00 per year tightening hoops. Saves 10 cents on pitching every ton of ensilage. Save you from any strains while taking up hoops, getting in or out of silo and taking out and putting in doors.

International Harvester Manure Spreaders

OOK for the following points in the manure spreader you buy: 1. Correct, efficient, well-tested design. 2. Guarantee of first-class materials. 3. Reinforcing of parts where strains usually come. 4. Strength of parts where strains usually come. 5. Wearing qualities and protection of driving parts. 6. Reputation of manufacturer, insuring efficient repair service. Satisfied American farmers find these essentials in International manure spreaders.

International spreaders have, besides, many features that grow out of long field experience. Study the steel construction in frame, wheels, and driving mechanism; the easily-removable heater; the differentials in rear axies, insuring even spreading while turning corners; the reversible worm and gear; low, easily-loaded box; and many others.

International spreaders are of all styles and sizes, high and low, endless and reverse apron. Write for illustrated catalogues, and when we send them we will tell you where you may see the spreaders. manure spreader you buy: 1. Cor-

## Farmers Interest Seed Corn Will Increase Your Yield 10 to 30 Bushel Per Acre

We care not what corn you have now, if you plant FARMERS INTER-EST WHITE DENT alongside of it it will beat it 10 to 30 bushels per acre-Farmers Interest has been bred for 18 years. Barren stalks have been eliminated, for cars grow very large, and the the quality is high. This variety has always won the highest bonors at the great international Corn

Expositions, open to the world, from the first one held in Chicago in 1907, down to and including the year 1914. The selection, breeding and Improving of this corn has conferred or farmers, and all the people, greater henefits than all the work of Luther Burbank, the plant wizard of California.

The least expensive and most certain way to improve a corn crop is b let others do the breeding and you buy the result at a small price per bushel. For a farmer to produce a bushel of corn like we self him for a couple of dollars would require the work of years worth a thous Send your name for a FREE cample and further particulars and photo-
